The screenshot shows a Microsoft Internet Explorer window with the title bar "Drug Selected: Tiazac® - Microsoft Internet Explorer". The menu bar includes File, Edit, View, Favorites, Tools, and Help. The toolbar contains Back, Forward, Stop, Refresh, Home, Search, Favorites, History, Mail, and Print buttons. The Address bar shows "Drug Selected: Tiazac®". The main content area displays the message: "Drug Selected: Tiazac®". Below it, a text box states: "You have selected a brand name drug still under patent. A generic may become available when the brand goes off patent." Further down, another text box says: "Click on the tabs above for other drug related information. When a generic drug first goes on the market, it generally costs at least 25% less than the brand-name version. After two years, the savings can increase to 60% or more." At the bottom are tabs for "Savings", "Description", "Instructions", "Side Effects", and "Miscellaneous". The status bar at the bottom shows "Done" and "Internet".
